

## Maggiore, minore, uguale

- ① - Esegui le addizioni, poi rispondi alla domanda.

$5 + 14 =$ .....	$5 + 24 =$ .....	$5 + 54 =$ .....	$45 + 16 =$ .....
$6 + 13 =$ .....	$15 + 24 =$ .....	$15 + 44 =$ .....	$44 + 17 =$ .....
$7 + 12 =$ .....	$25 + 24 =$ .....	$25 + 34 =$ .....	$43 + 18 =$ .....
$8 + 11 =$ .....	$35 + 24 =$ .....	$35 + 24 =$ .....	$42 + 19 =$ .....
$9 + 10 =$ .....	$35 + 24 =$ .....	$45 + 14 =$ .....	$41 + 20 =$ .....

• Quali osservazioni puoi fare? .....

- ② - Completa, inserendo il segno mancante  $>$  ;  $<$  ;  $=$ , come nell'esempio.

$15 + 6 < 22$	$30 \square 18 + 10$	$13 + 5 \square 17 + 9$
$17 + 9 \square 24$	$55 \square 25 + 25$	$12 + 8 \square 10 + 10$
$7 + 54 \square 65$	$72 \square 60 + 12$	$6 + 18 \square 20 + 5$
$8 + 76 \square 84$	$84 \square 24 + 44$	$11 + 11 \square 0 + 21$
$11 + 70 \square 90$	$90 \square 45 + 45$	$50 + 15 \square 30 + 30$

- ③ - Completa, inserendo i numeri mancanti.

$12 + 7 = \square$	$12 + 7 > \square$	$12 + 7 < \square$
$22 + 12 = \square + 6$	$22 + 12 > \square + 6$	$22 + 12 < \square + 6$
$15 + 20 = \square + 5$	$15 + 20 > \square + 5$	$15 + 20 < \square + 5$
$7 + 7 = \square + \square$	$7 + 7 > \square + \square$	$7 + 7 < \square + \square$
$8 + 10 = \square + \square$	$8 + 10 > \square + \square$	$8 + 10 < \square + \square$

$\square + \square = \square + \square$
$\square + \square > \square + \square$
$\square + \square < \square + \square$
