

MOLTIPLICAZIONI PER 10 - 100 - 1.000

1) Calcola a mente:

$7 \times 1.000 = \underline{\hspace{2cm}}$

$0,9 \times 1.000 = \underline{\hspace{2cm}}$

$68,4 \times 10 = \underline{\hspace{2cm}}$

$68,7 \times 10 = \underline{\hspace{2cm}}$

$54,1 \times 100 = \underline{\hspace{2cm}}$

$85,6 \times 10 = \underline{\hspace{2cm}}$

$599,36 \times 10 = \underline{\hspace{2cm}}$

$98,5 \times 100 = \underline{\hspace{2cm}}$

$36,852 \times 10 = \underline{\hspace{2cm}}$

$0,9 \times 1.000 = \underline{\hspace{2cm}}$

2) Calcola a mente

$0,842 \times 1.000 = \underline{\hspace{2cm}}$

$583,5 \times 10 = \underline{\hspace{2cm}}$

$378,01 \times 10 = \underline{\hspace{2cm}}$

$0,8 \times 1.000 = \underline{\hspace{2cm}}$

$512,37 \times 10 = \underline{\hspace{2cm}}$

$0,57 \times 1.000 = \underline{\hspace{2cm}}$

$45,83 \times 10 = \underline{\hspace{2cm}}$

$141,1 \times 10 = \underline{\hspace{2cm}}$

$79,074 \times 10 = \underline{\hspace{2cm}}$

$0,7 \times 1.000 = \underline{\hspace{2cm}}$

MOLTIPLICAZIONI PER 10 - 100 - 1.000

1) Calcola a mente:

$41,5 \times 10 = \underline{\hspace{2cm}}$

$962,1 \times 10 = \underline{\hspace{2cm}}$

$58,29 \times 10 = \underline{\hspace{2cm}}$

$49,38 \times 100 = \underline{\hspace{2cm}}$

$90,656 \times 100 = \underline{\hspace{2cm}}$

$0,7 \times 1.000 = \underline{\hspace{2cm}}$

$15,366 \times 100 = \underline{\hspace{2cm}}$

$545,162 \times 10 = \underline{\hspace{2cm}}$

$697,418 \times 10 = \underline{\hspace{2cm}}$

$53,2 \times 100 = \underline{\hspace{2cm}}$

2) Calcola a mente

$525,16 \times 10 = \underline{\hspace{2cm}}$

$0,658 \times 1.000 = \underline{\hspace{2cm}}$

$478,18 \times 10 = \underline{\hspace{2cm}}$

$87,363 \times 10 = \underline{\hspace{2cm}}$

$78,3 \times 100 = \underline{\hspace{2cm}}$

$69,13 \times 100 = \underline{\hspace{2cm}}$

$480,6 \times 100 = \underline{\hspace{2cm}}$

$82,01 \times 10 = \underline{\hspace{2cm}}$

$5 \times 100 = \underline{\hspace{2cm}}$

$49,31 \times 10 = \underline{\hspace{2cm}}$

MOLTIPLICAZIONI PER 10 - 100 - 1.000

1) Calcola a mente:

$$751 \times 1.000 = \underline{\hspace{2cm}}$$

$$37 \times 100 = \underline{\hspace{2cm}}$$

$$453 \times 1.000 = \underline{\hspace{2cm}}$$

$$352 \times 100 = \underline{\hspace{2cm}}$$

$$9.351 \times 10 = \underline{\hspace{2cm}}$$

$$569 \times 100 = \underline{\hspace{2cm}}$$

$$3.744 \times 10 = \underline{\hspace{2cm}}$$

$$29 \times 100 = \underline{\hspace{2cm}}$$

$$72 \times 10 = \underline{\hspace{2cm}}$$

$$4.151 \times 10 = \underline{\hspace{2cm}}$$

2) Calcola a mente

$$924 \times 1.000 = \underline{\hspace{2cm}}$$

$$3 \times 1.000 = \underline{\hspace{2cm}}$$

$$51 \times 1.000 = \underline{\hspace{2cm}}$$

$$7.255 \times 1 = \underline{\hspace{2cm}}$$

$$91 \times 1.000 = \underline{\hspace{2cm}}$$

$$45 \times 10 = \underline{\hspace{2cm}}$$

$$2 \times 10 = \underline{\hspace{2cm}}$$

$$1 \times 100 = \underline{\hspace{2cm}}$$

$$76 \times 1.000 = \underline{\hspace{2cm}}$$

$$2.973 \times 10 = \underline{\hspace{2cm}}$$

MOLTIPLICAZIONI PER 10 - 100 - 1.000

1) Calcola a mente:

$229 \times 100 = \underline{\hspace{2cm}}$

$6 \times 100 = \underline{\hspace{2cm}}$

$17 \times 100 = \underline{\hspace{2cm}}$

$9 \times 1.000 = \underline{\hspace{2cm}}$

$704 \times 1 = \underline{\hspace{2cm}}$

$413 \times 10 = \underline{\hspace{2cm}}$

$35 \times 1.000 = \underline{\hspace{2cm}}$

$5 \times 1.000 = \underline{\hspace{2cm}}$

$8 \times 100 = \underline{\hspace{2cm}}$

$7.443 \times 10 = \underline{\hspace{2cm}}$

2) Calcola a mente

$2 \times 10 = \underline{\hspace{2cm}}$

$902 \times 10 = \underline{\hspace{2cm}}$

$40 \times 1.000 = \underline{\hspace{2cm}}$

$922 \times 1.000 = \underline{\hspace{2cm}}$

$2 \times 100 = \underline{\hspace{2cm}}$

$781 \times 1.000 = \underline{\hspace{2cm}}$

$441 \times 10 = \underline{\hspace{2cm}}$

$12 \times 100 = \underline{\hspace{2cm}}$

$5 \times 1.000 = \underline{\hspace{2cm}}$

$289 \times 10 = \underline{\hspace{2cm}}$

MOLTIPLICAZIONI PER 10 - 100 - 1.000

1) Calcola a mente:

$$6.372 \times 10 = \underline{\hspace{2cm}}$$

$$305 \times 100 = \underline{\hspace{2cm}}$$

$$6 \times 100 = \underline{\hspace{2cm}}$$

$$3 \times 10 = \underline{\hspace{2cm}}$$

$$9.623 \times 10 = \underline{\hspace{2cm}}$$

$$7 \times 1.000 = \underline{\hspace{2cm}}$$

$$3 \times 100 = \underline{\hspace{2cm}}$$

$$59 \times 1.000 = \underline{\hspace{2cm}}$$

$$63 \times 10 = \underline{\hspace{2cm}}$$

$$85 \times 100 = \underline{\hspace{2cm}}$$

2) Calcola a mente

$$9 \times 100 = \underline{\hspace{2cm}}$$

$$2.110 \times 10 = \underline{\hspace{2cm}}$$

$$192 \times 10 = \underline{\hspace{2cm}}$$

$$3 \times 1.000 = \underline{\hspace{2cm}}$$

$$4 \times 10 = \underline{\hspace{2cm}}$$

$$7 \times 100 = \underline{\hspace{2cm}}$$

$$8 \times 1.00 = \underline{\hspace{2cm}}$$

$$30 \times 100 = \underline{\hspace{2cm}}$$

$$400 \times 100 = \underline{\hspace{2cm}}$$

$$1 \times 1.000 = \underline{\hspace{2cm}}$$

MOLTIPLICAZIONI PER 10 - 100 - 1.000

1) Completa con il numero mancante:

$$4.804 \times \dots = 48.040$$

$$3 \times \dots = 3.000$$

$$23 \times \dots = 2.300$$

$$52 \times \dots = 52.000$$

$$638 \times \dots = 6.380$$

$$270 \times \dots = 2.700$$

$$7 \times \dots = 700$$

$$690 \times \dots = 6.900$$

$$88 \times \dots = 880$$

$$9.090 \times \dots = 90.900$$

HALLOWEEN

2) Completa con il numero mancante:

$$\dots \times 100 = 76.600$$

$$\dots \times 10 = 940$$

$$\dots \times 100 = 1.800$$

$$\dots \times 1.000 = 8.000$$

$$\dots \times 10 = 15.730$$

$$\dots \times 100 = 92.500$$

$$\dots \times 1.000 = 24.000$$

$$\dots \times 100 = 2.600$$

$$\dots \times 10 = 900$$

$$\dots \times 10 = 3.560$$

MOLTIPLICAZIONI PER 10 - 100 - 1.000

1) Completa con il numero mancante:

$$17 \times \dots = 170$$

$$84 \times \dots = 84.000$$

$$43 \times \dots = 4.300$$

$$2 \times \dots = 2.000$$

$$209 \times \dots = 20.900$$

$$30 \times \dots = 3.000$$

$$19 \times \dots = 1.900$$

$$35 \times \dots = 35.000$$

$$11 \times \dots = 110$$

$$955 \times \dots = 9.550$$

2) Completa con il numero mancante:

$$\dots \times 100 = 62.000$$

$$\dots \times 1.000 = 50.000$$

$$\dots \times 10 = 896.000$$

$$\dots \times 1.000 = 12.000$$

$$\dots \times 100 = 1.600$$

$$\dots \times 100 = 38.700$$

$$\dots \times 1.000 = 16.000$$

$$\dots \times 100 = 130.000$$

$$\dots \times 10 = 6.700$$

$$\dots \times 10 = 980$$

MOLTIPLICAZIONI PER MULTIPLI DI 10

1) Calcola a mente:

$50 \times 10 = \underline{\hspace{2cm}}$

$70 \times 50 = \underline{\hspace{2cm}}$

$20 \times 90 = \underline{\hspace{2cm}}$

$20 \times 70 = \underline{\hspace{2cm}}$

$70 \times 40 = \underline{\hspace{2cm}}$

$80 \times 40 = \underline{\hspace{2cm}}$

$30 \times 80 = \underline{\hspace{2cm}}$

$90 \times 40 = \underline{\hspace{2cm}}$

$80 \times 90 = \underline{\hspace{2cm}}$

$90 \times 50 = \underline{\hspace{2cm}}$

2) Calcola a mente

$70 \times 60 = \underline{\hspace{2cm}}$

$60 \times 60 = \underline{\hspace{2cm}}$

$20 \times 50 = \underline{\hspace{2cm}}$

$80 \times 60 = \underline{\hspace{2cm}}$

$40 \times 30 = \underline{\hspace{2cm}}$

$70 \times 30 = \underline{\hspace{2cm}}$

$80 \times 40 = \underline{\hspace{2cm}}$

$30 \times 90 = \underline{\hspace{2cm}}$

$90 \times 60 = \underline{\hspace{2cm}}$

$20 \times 20 = \underline{\hspace{2cm}}$

MOLTIPLICAZIONI PER MULTIPLI DI 10

1) Calcola a mente:

$90 \times 50 = \underline{\hspace{2cm}}$

$40 \times 90 = \underline{\hspace{2cm}}$

$60 \times 90 = \underline{\hspace{2cm}}$

$40 \times 40 = \underline{\hspace{2cm}}$

$90 \times 60 = \underline{\hspace{2cm}}$

$20 \times 60 = \underline{\hspace{2cm}}$

$50 \times 50 = \underline{\hspace{2cm}}$

$20 \times 50 = \underline{\hspace{2cm}}$

$20 \times 60 = \underline{\hspace{2cm}}$

$50 \times 80 = \underline{\hspace{2cm}}$

2) Calcola a mente

$60 \times 30 = \underline{\hspace{2cm}}$

$90 \times 60 = \underline{\hspace{2cm}}$

$20 \times 50 = \underline{\hspace{2cm}}$

$60 \times 70 = \underline{\hspace{2cm}}$

$10 \times 30 = \underline{\hspace{2cm}}$

$90 \times 40 = \underline{\hspace{2cm}}$

$90 \times 10 = \underline{\hspace{2cm}}$

$80 \times 30 = \underline{\hspace{2cm}}$

$20 \times 60 = \underline{\hspace{2cm}}$

$70 \times 10 = \underline{\hspace{2cm}}$

MOLTIPLICAZIONI PER MULTIPLI DI 10

1) Calcola a mente:

$52 \times 80 = \underline{\hspace{2cm}}$

$68 \times 60 = \underline{\hspace{2cm}}$

$77 \times 50 = \underline{\hspace{2cm}}$

$31 \times 50 = \underline{\hspace{2cm}}$

$88 \times 90 = \underline{\hspace{2cm}}$

$85 \times 40 = \underline{\hspace{2cm}}$

$89 \times 10 = \underline{\hspace{2cm}}$

$37 \times 70 = \underline{\hspace{2cm}}$

$11 \times 20 = \underline{\hspace{2cm}}$

$30 \times 30 = \underline{\hspace{2cm}}$

2) Calcola a mente

$90 \times 60 = \underline{\hspace{2cm}}$

$27 \times 70 = \underline{\hspace{2cm}}$

$59 \times 40 = \underline{\hspace{2cm}}$

$21 \times 60 = \underline{\hspace{2cm}}$

$5 \times 90 = \underline{\hspace{2cm}}$

$19 \times 30 = \underline{\hspace{2cm}}$

$49 \times 60 = \underline{\hspace{2cm}}$

$75 \times 60 = \underline{\hspace{2cm}}$

$43 \times 80 = \underline{\hspace{2cm}}$

$2 \times 90 = \underline{\hspace{2cm}}$

MOLTIPLICAZIONI PER MULTIPLI DI 10

1) Calcola a mente:

$74 \times 90 = \underline{\hspace{2cm}}$

$26 \times 30 = \underline{\hspace{2cm}}$

$5 \times 30 = \underline{\hspace{2cm}}$

$45 \times 90 = \underline{\hspace{2cm}}$

$85 \times 20 = \underline{\hspace{2cm}}$

$55 \times 20 = \underline{\hspace{2cm}}$

$91 \times 20 = \underline{\hspace{2cm}}$

$14 \times 80 = \underline{\hspace{2cm}}$

$91 \times 40 = \underline{\hspace{2cm}}$

$81 \times 60 = \underline{\hspace{2cm}}$

2) Calcola a mente

$18 \times 80 = \underline{\hspace{2cm}}$

$67 \times 40 = \underline{\hspace{2cm}}$

$56 \times 30 = \underline{\hspace{2cm}}$

$68 \times 30 = \underline{\hspace{2cm}}$

$9 \times 90 = \underline{\hspace{2cm}}$

$41 \times 60 = \underline{\hspace{2cm}}$

$93 \times 30 = \underline{\hspace{2cm}}$

$84 \times 90 = \underline{\hspace{2cm}}$

$67 \times 70 = \underline{\hspace{2cm}}$

$96 \times 70 = \underline{\hspace{2cm}}$
