

1) Metti in colonna e calcola con la prova:

$7.225 \times 9 = \underline{\hspace{2cm}}$

$39.698 \times 2 = \underline{\hspace{2cm}}$

$19.068 \times 3 = \underline{\hspace{2cm}}$

$6.734 \times 9 = \underline{\hspace{2cm}}$

$12.977 \times 6 = \underline{\hspace{2cm}}$

$3.137 \times 4 = \underline{\hspace{2cm}}$

$9.325 \times 5 = \underline{\hspace{2cm}}$

$1.977 \times 6 = \underline{\hspace{2cm}}$

$6.132 \times 2 = \underline{\hspace{2cm}}$

$2.073 \times 4 = \underline{\hspace{2cm}}$

$11.344 \times 3 = \underline{\hspace{2cm}}$

$43.886 \times 2 = \underline{\hspace{2cm}}$

2) Metti in colonna e calcola con la prova:

$2.431 \times 31 = \underline{\hspace{2cm}}$

$3.814 \times 26 = \underline{\hspace{2cm}}$

$247 \times 54 = \underline{\hspace{2cm}}$

$1.932 \times 44 = \underline{\hspace{2cm}}$

$587 \times 35 = \underline{\hspace{2cm}}$

$1.392 \times 55 = \underline{\hspace{2cm}}$

$1.468 \times 11 = \underline{\hspace{2cm}}$

$802 \times 41 = \underline{\hspace{2cm}}$

$1.142 \times 26 = \underline{\hspace{2cm}}$

$3.102 \times 28 = \underline{\hspace{2cm}}$

$308 \times 78 = \underline{\hspace{2cm}}$

$6.226 \times 14 = \underline{\hspace{2cm}}$

1) Metti in colonna e calcola con la prova:

$7.225 \times 9 = \underline{\hspace{2cm}}$

$39.698 \times 2 = \underline{\hspace{2cm}}$

$19.068 \times 3 = \underline{\hspace{2cm}}$

$6.734 \times 9 = \underline{\hspace{2cm}}$

$12.977 \times 6 = \underline{\hspace{2cm}}$

$3.137 \times 4 = \underline{\hspace{2cm}}$

$9.325 \times 5 = \underline{\hspace{2cm}}$

$1.977 \times 6 = \underline{\hspace{2cm}}$

$6.132 \times 6 = \underline{\hspace{2cm}}$

$2.073 \times 4 = \underline{\hspace{2cm}}$

$11.344 \times 3 = \underline{\hspace{2cm}}$

$43.886 \times 2 = \underline{\hspace{2cm}}$

2) Metti in colonna e calcola con la prova:

$2.431 \times 31 = \underline{\hspace{2cm}}$

$3.814 \times 26 = \underline{\hspace{2cm}}$

$247 \times 54 = \underline{\hspace{2cm}}$

$1.932 \times 44 = \underline{\hspace{2cm}}$

$587 \times 35 = \underline{\hspace{2cm}}$

$1.392 \times 55 = \underline{\hspace{2cm}}$

$1.468 \times 11 = \underline{\hspace{2cm}}$

$802 \times 41 = \underline{\hspace{2cm}}$

$1.142 \times 26 = \underline{\hspace{2cm}}$

$3.102 \times 28 = \underline{\hspace{2cm}}$

$308 \times 78 = \underline{\hspace{2cm}}$

$6.226 \times 14 = \underline{\hspace{2cm}}$

1) Metti in colonna e calcola con la prova:

$$178,41 \times 12,3 = \underline{\hspace{2cm}}$$

$$31,428 \times 28,9 = \underline{\hspace{2cm}}$$

$$37,028 \times 22,8 = \underline{\hspace{2cm}}$$

$$48,85 \times 319 = \underline{\hspace{2cm}}$$

$$414,4 \times 7,19 = \underline{\hspace{2cm}}$$

$$877,98 \times 1,33 = \underline{\hspace{2cm}}$$

$$16,515 \times 3,97 = \underline{\hspace{2cm}}$$

$$22,521 \times 31,7 = \underline{\hspace{2cm}}$$

$$61,892 \times 4,72 = \underline{\hspace{2cm}}$$

$$512,9 \times 67 = \underline{\hspace{2cm}}$$

$$247,01 \times 19,4 = \underline{\hspace{2cm}}$$

$$715,02 \times 5,69 = \underline{\hspace{2cm}}$$

2) Metti in colonna e calcola con la prova:

$$10,62 \times 77,3 = \underline{\hspace{2cm}}$$

$$10,971 \times 39,2 = \underline{\hspace{2cm}}$$

$$11,713 \times 32 = \underline{\hspace{2cm}}$$

$$46,175 \times 12,9 = \underline{\hspace{2cm}}$$

$$3.420,6 \times 2,4 = \underline{\hspace{2cm}}$$

$$310,8 \times 48,8 = \underline{\hspace{2cm}}$$

$$22,278 \times 35,2 = \underline{\hspace{2cm}}$$

$$417,3 \times 19,4 = \underline{\hspace{2cm}}$$

$$68,76 \times 10,6 = \underline{\hspace{2cm}}$$

$$33,996 \times 15,8 = \underline{\hspace{2cm}}$$

$$19,298 \times 15,3 = \underline{\hspace{2cm}}$$

$$639,4 \times 17,4 = \underline{\hspace{2cm}}$$

1) Metti in colonna e calcola con la prova:

$262 \times 701 = \underline{\hspace{2cm}}$

$1.748 \times 309 = \underline{\hspace{2cm}}$

$2.502 \times 254 = \underline{\hspace{2cm}}$

$374 \times 599 = \underline{\hspace{2cm}}$

$5.973 \times 152 = \underline{\hspace{2cm}}$

$3.316 \times 262 = \underline{\hspace{2cm}}$

$645 \times 913 = \underline{\hspace{2cm}}$

$807 \times 967 = \underline{\hspace{2cm}}$

$5.275 \times 124 = \underline{\hspace{2cm}}$

$2.313 \times 136 = \underline{\hspace{2cm}}$

$1.899 \times 264 = \underline{\hspace{2cm}}$

$498 \times 382 = \underline{\hspace{2cm}}$

2) Metti in colonna e calcola con la prova:

$2.132 \times 457 = \underline{\hspace{2cm}}$

$948 \times 631 = \underline{\hspace{2cm}}$

$1.141 \times 109 = \underline{\hspace{2cm}}$

$231 \times 277 = \underline{\hspace{2cm}}$

$1.917 \times 102 = \underline{\hspace{2cm}}$

$387 \times 207 = \underline{\hspace{2cm}}$

$1.048 \times 771 = \underline{\hspace{2cm}}$

$2.071 \times 373 = \underline{\hspace{2cm}}$

$2.016 \times 371 = \underline{\hspace{2cm}}$

$496 \times 723 = \underline{\hspace{2cm}}$

$5.632 \times 164 = \underline{\hspace{2cm}}$

$1.548 \times 241 = \underline{\hspace{2cm}}$
