

## CALCOLI MENTALI CON NUMERI DECIMALI

A. Aggiungi ciò che manca per far diventare intero ogni numero.

$$20,007 + \\ 0,993 = \\ \hline 21$$

$$16,002 + \\ -' \underline{\quad} = \\ \hline 17$$

$$32,006 + \\ -' \underline{\quad} = \\ \hline 33$$

$$48,004 + \\ -' \underline{\quad} = \\ \hline 49$$

$$64,008 + \\ -' \underline{\quad} = \\ \hline$$

$$41,080 + \\ -' \underline{\quad} = \\ \hline$$

$$57,070 + \\ -' \underline{\quad} = \\ \hline$$

$$18,050 + \\ -' \underline{\quad} = \\ \hline$$

$$70,060 + \\ -' \underline{\quad} = \\ \hline$$

$$82,040 + \\ -' \underline{\quad} = \\ \hline$$

$$45,999 + \\ -' \underline{\quad} = \\ \hline$$

$$26,825 + \\ -' \underline{\quad} = \\ \hline$$

$$61,700 + \\ -' \underline{\quad} = \\ \hline$$

$$53,555 + \\ -' \underline{\quad} = \\ \hline$$

$$14,600 + \\ -' \underline{\quad} = \\ \hline$$

B. Completa la tabella come richiesto. Segui gli esempi.

| NUMERO | Arriva al <b>centesimo<br/>successivo</b> .<br>Aiutati con le coppie<br>del 10! | Arriva al <b>decimo<br/>successivo</b> .<br>Aiutati con le coppie<br>del 100! |
|--------|---|---|
| 12,341 | $12,3\textcolor{red}{4}1 + 0,00\textcolor{red}{9} = 12,35$                      | $12,\textcolor{red}{0}41 + 0,05\textcolor{red}{9} = 12,4$                     |
| 14,253 | $14,2\textcolor{red}{5}3 + \underline{\quad} = 14,26$                           | $14,\textcolor{red}{0}53 + \underline{\quad} = 14,3$                          |
| 28,162 | $28,1\textcolor{red}{6}2 + \underline{\quad} = 28,17$                           | $28,\textcolor{red}{0}62 + \underline{\quad} = 28,2$                          |
| 35,486 | $35,4\textcolor{red}{8}6 + \underline{\quad} = 35,49$                           | $35,\textcolor{red}{0}86 + \underline{\quad} = 35,5$                          |
| 70,264 | $70,2\textcolor{red}{6}4 + \underline{\quad} = 70,27$                           | $70,\textcolor{red}{0}64 + \underline{\quad} = 70,3$                          |
| 0,458  | $0,4\textcolor{red}{5}8 + \underline{\quad} = 0,46$                             | $0,\textcolor{red}{0}58 + \underline{\quad} = 0,5$                            |
| 31,462 | $31,4\textcolor{red}{6}2 + \underline{\quad} = 31,47$                           | $31,\textcolor{red}{0}62 + \underline{\quad} = 31,5$                          |
| 74,417 | $74,4\textcolor{red}{1}7 + \underline{\quad} = 74,62$                           | $74,\textcolor{red}{0}17 + \underline{\quad} = 74,7$                          |
| 60,372 | $60,3\textcolor{red}{7}2 + \underline{\quad} = 60,38$                           | $60,\textcolor{red}{0}72 + \underline{\quad} = 60,4$                          |
| 2,145  | $2,1\textcolor{red}{4}5 + \underline{\quad} = 2,15$                             | $2,\textcolor{red}{0}45 + \underline{\quad} = 2,2$                            |
