<input type="checkbox"/>	socks

Instructions

Divide children in groups of 2,3 or 4, as you need. Give each group one game plan and each player one shopping list. Children throw the dice. If they land on an item, that is on their shopping list, they make a tick on their list (they „buy“ it). The winner is the player who buys all the clothes on his/her shopping list first. (or if you don't have enough time, the player who buys most clothes in certain time limit.) Of course, if they finish one round and nobody has got all the clothes on his/her list, they play again from the beginning.
